TAILOR MADE LIVING AREAS ON THE SEA

İSMAIL ŞENGÜN – CEO, BILGIN YACHTS

"As Bilgin Yachts, we provide you the opportunity of having your home-like yacht to travel on the seven seas of the world. A journey starting from a visit in our shipyard located in Istanbul can bring you to the point of developing your dream yacht to last for a lifetime. Our principle is working in close collaboration with our new and repeat clients at every stage of the production in order to deliver the best result. We built a team with extensive know-how from design to technology."

BILGIN OWNERS ALWAYS COME BACK FOR THEIR SECOND YACHT

"All the yachts we have successfully delivered so far have completely satisfied their owners with their luxury and comfort. Our clients regularly return to Istanbul for the winter season where we perform maintenance and upgrades on the yachts. Now that we moved to our new facility at West Istanbul Marina, we foresee a further enhancement in the distinctive signature of Bilgin Yachts. Today, Bilgin 163 is our most ambitious project and is a perfect example of what we can propose to the adventurers of the sea."

INSPIRED BY THE NATURE

“The Bilgin NB-81 is a modern, contemporary, elegant vessel, with a perfect combination of smooth and edgy surfaces which make it masculine yet welcoming yacht. The interior mood board is based on few natural colours which include the entire range of sand, cream, light grey and off-white elements.

It is characterized by a modern look, rich in textures and reflective elements which at the same time enlarge the space and give the real feeling of an ultra high-end product. Complex, yet perfectly homogeneous it looks well balanced, greatly designed and never ostentatious.

Modern materials, such as 3D massive woods, metal-mesh laminated glasses, chromed stainless steel elements, rich carpets and fabrics directly coming from the rich Italian textile heritage create relaxing interiors in which every guest will really perceive the dedication and professionalism which the project was first of all designed with and then the skill which it was built with.

A perfect mixture of design, craftsmanship and attention to every detail.”

ENRICO LUMINI - PARTNER AND DESIGN DIRECTOR IN HOT LAB, part of Viken Group

A MORE ACTIVE LIFESTYLE

Bilgin 163 series will have the comfort and functionality which we have applied in over 500 GT yachts. She has a very sporty look in every sense.

EMRECAN ÖZGÜN - CEO & FOUNDER UNIQUE YACHT DESIGN

We can define Bilgin 50m yachts as the new version of 48-meter series. With six-cabin layout, they are going to offer extensive living areas. Particularly the exterior areas are 20 percent larger compared to 48m yachts. This also gives a sportive look to Bilgin 163. With 2x1450 CAT engines are preferred on board, the yacht is going to have a top speed of around 17 knots with low costs.

BILGIN 163-II

MAIN CHARACTERISTICS

General

Exterior Design	: Unique Yacht Design

HOME AWAY FROM HOME

BILGIN 163-II - MAIN SALOON

Sophisticated. Complex. Comfortable. Familiar. We could define the main saloon as a perfect example of what could be reached blending an italian touch of style with an incredible craftsmanship. Very large windows, mirror sticks, an incredible mosaic of wood and stone floor, each element is something which has to be discovered slowly and will reveal new details at every new glance.

A decorative graphic element consisting of two parallel diagonal lines, one black and one grey, extending from the bottom right corner towards the center of the page.

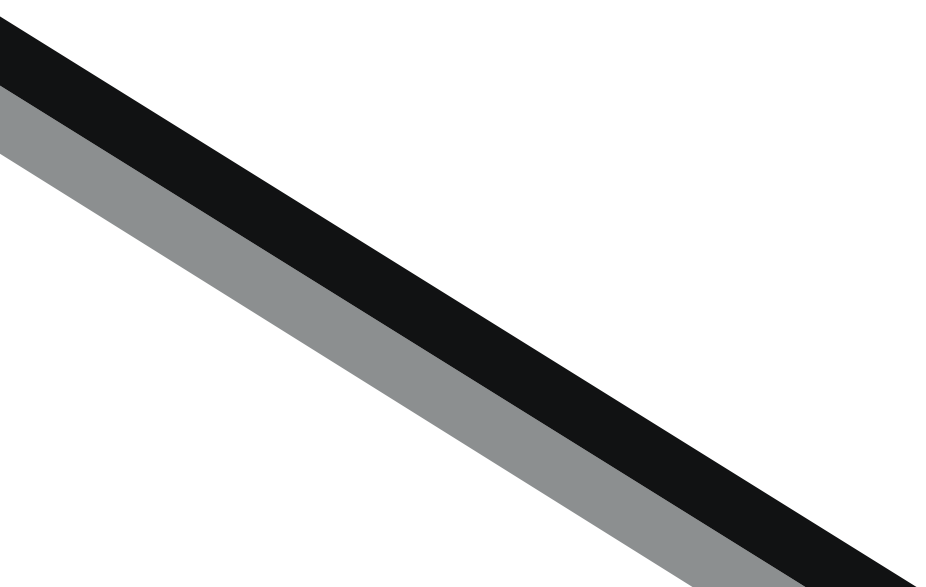

BILGIN 163-II - MASTER CABIN

The master cabin presents its own private office, refined with a gorgeous stand-alone desk and surrounded by rounded bookshelves and art pieces; it opens directly into the cabins itself, spacious and extremely light. Organic shapes on each ceiling panels, created in mirror and suede, or the wall panels, crafted in embossed leather, immediately transport the guest into a contemporary and welcoming space.

BILGIN 163-II - MASTER CABIN

BILGIN 163-II - VIP CABIN

Curvy shapes and natural materials give you the feeling of an extremely calm and relaxed area, yet luxurious. Transparencies, given through the use of laminated glass and metal meshes enlarge the space, dark mirrors create the effect of an infinity wall and fully transforms the perception of volumes.

BILGIN 163-II - VIP CABIN

BILGIN 163-II - BEACH CLUB

Sauna, day head with shower, ice fountain, a great bar area and of course a relaxing lounge: anything you need to enjoy the sea even more is a part this incredible beach club.

The yacht has very generous head heights throughout the living areas, large windows and low bulwark lines that increase the visibility in the main living room." He underlines the fact that the yacht has an abundant natural light which is a great source of warmth, comfort and health.

He continues his words as follows: "A Full-height round glass wall separates the lobby from the main living room. Hot Lab team has added special features such as a floating staircase, skylight at sundeck floor and an amazing chandelier in the main lobby."

BERKAY YILMAZ – COMMERCIAL DIRECTOR

GLAZED SURFACES BRING SEAMLESS CONNECTION WITH THE NATURE

She has 21 mt. long sun deck and 12 mt. long bridge deck aft.
Bilgin 163 – 50 meters offer the largest exterior spaces in her category in the yachting market.
